A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchial and laryngeal troubles and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

Reliable Remedy CATARRH

Ely's Cream Balm is quickly absorbed. Gives Relief at Once. It opens, cleanses, soothes, heals and protects the diseased membranes. It cures Catarrh, Hay Fever, Colds, Headache, Loss of Taste, Smell and Hearing. A thorough treatment will cure. Sold by druggists or by mail.

HAY FEVER

Full size 50 cts., at Druggists. In liquid form, 75 cents. Ely Brothers, 56 Warren Street, New York.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

HICKS FOR NOVEMBER.

A Mercury period covers the first week in the month and a regular Vulcan period blends with the Mercury period up to the 4th. The Mercury influence will dominate weather conditions up to about the 8th, so that disturbed, cloudy and disagreeable weather will be natural even after the close of the regular Vulcan period. General autumnal rain, with touches of light ning and thunder to the southward, will center on the 3rd, possibly touching the 2nd and 4th in their formation and progress from west to east. The barometer will most likely remain low and the temperature high as we pass into the next storm period.

A reactionary storm period is central on the 5th, 6th and 7th, having as an additional cause of storms and others disturbances the conjuntion of the moon with earth and sun on the 5th.

We predict that storms will take on decided boreal conditions from about the 5th to the 7th—that rains will turn to sleet and snow, generally, to the northward, with rising barometer, change to colder and very stiff to dangerous gales from the northwest, especially in all lakes. Mark this warning. Tendency to seismic perturbations, generally, will be at a maximum for a period of five days, central on the 5th. The moon is at extreme south declination on the 9th, and this fact will cause a continuance of cold atmospheric currents from the north until we come under the influence of the next storm period.

A regular storm period is central on the 12th, exteuding from the 10th to the 15th. This period will pass its crisis from Tuesday, the 12th, to Friday, the 15th. Change to warmer, falling barometer and cloudiness will appear in western sections by the 10th and 11th, followed promptly by autumnal storms, but these storms will grow in extent and intensity as they pass over the country from west to east, reaching their climax in central to eastern sections from the 12th to 15th.

Reactionary storm period falls on the 18th, 19th and 20th, embracing moon in opposition, or full moon on the 19th. This period will bring falling barometer, with corresponding cloudiness, rain and possibly snow. The full moon periods, and those of the new moon, as well, are times when seismic shakes are more frequent. They are also times when gales are more certain and severe on the lakes and north Atlantic. All this is especially true about the month of November. Change to much colder will rush down from the northwest about the 18th to 22d.

A regular storm period extends from Friday, the 22d, to Tuesday, the moon being at the same time at extreme north declination. During this period look for marked depression of the barometer, higher temperature and more rain, turning to snow north and west, about the 23rd, 24th and 25th. But for the presence of Jupiter and Saturn periodi, this storm period, and, in fact, all the periods in November, are comparatively free from combinations of storm causes. Notwithstanding, it will be the part of prudence to anticipate some disagreeable, if not forceful, autumnal storms between the 23rd and the 26th. High barometer and change to colder, frost and freezing will follow the disturbances of this period.

A reactionary storm period is central on the last three days in the month. This period will reach its crisis on the 30th.

A Significant Prayer.

"May the Lord help you make Bucklen's Arnica Salve known to all," writes J. G. Jenkins, of Hapel Hill, N. C. It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c at all drug stores.

NEARLY $70,000 TAX INCREASE.

The State Corporation Commission has completed and certified to the auditor of public accounts the assessment of the properties of steam and electric railroads for the year 1907, and the comparative figures given below show the increase in valuation and taxation over the year 1906

STEAM RAILROADS.

Total value of all property—1907, $80,173,163 00; 1906, $73,036,554.00; increase, $7, 136 609.00.

Total property tax—1907, $230,606.10; 1906, $225,627.91; increase, $24,978.19.

Gross earnings in Virginia—1907, $44,906,007.15; 1906, $41,967,246 58; increase, $2,938,760 57.

Total franchise tax—1907, $449,060.08; 1906, $419,672.45; increase, $29,387 63.

Grand total State tax—1907, $729,666 18; 1906, $675,300.36; increase, $54,365.82.

ELECTRIC RAILROADS.

Total value of property—1907, $8 432,313 00; 1906 $7 593 687.00; increase, $838 626 00;

Total property tax—1907, $29,513 10; 1906, $26,577.89; increase, $2,935.21.

Gross earnings in Virginia—1907, $3 576,159.26; 1906 $3.059 125.10; increase, $517,034.16.

Total franchise tax—1907, $35,761,59; 1906, $30,591.24; increase, $5,170.35.

Grand total State tax—1907, $65,274 69; 1906 $57,169.13; increase, $8,105 56.

From the above it will be seen that State taxes assessed against steam and electric railroads for the current year are $62,471.38 greater than for the previous year, to which should be added the increase in the assessment against telegraph and telephone companies and express, steamship and sleeping car companies, amounting to $6,722.41, making an increase in the grand total State taxes against public service corporations, $69,193.79.

Only a little cold in the head may be the beginning of an obstinate case of Nasal Catarrh. Drive out the invader with Ely's Cream Balm applied straight to the inflamed stuffed up air passages. Price 50c. If you prefer to use an atomizer, ask for Liquid Cream Balm. It has all the good qualities of the solid form of this remedy and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretion. Price 75c, with spraying tube. All druggists, or mailed by Ely Bros., 56 Warren street, New York.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

Alexandria Gazette — Sic Semper Tyrannis — And Virginia Advertiser

MONDAY EVENING, NOV. 4, 1907.

TOMORROW WILL be election day. In seven States—Maryland, New Jersey, Massachusetts, Rhode Island, Kentucky, Mississippi and Louisiana—governors will be elected tomorrow. In Virginia members of both branches of the Legislature are to be chosen, and in five other States minor officers will be chosen. Every voter, putting all excuses aside, should go the polls and vote. It will cost but a small effort and but little time to perform this service to the State, and no good citizen will omit it. No man who calls himself a democrat should omit to vote against republican rule in Virginia and the democratic nominees to be voted for in this city—C. C. Carlin, for Congress; R. E. Thornton, for the State Senate, and J. R. Caton, for the House of Delegates—should receive the full party support.

IN FOUR weeks the Jamestown Exposition will be no more. On Saturday night, November 30, the lights will go out for the last time on one of the most beautiful fairs ever held in this country, and the act of wrecking the handsome structures and the salvage work will begin soon thereafter. The exposition has not received the encouragement it richly deserved. There may have been some bad management and some lavish, if not reckless, expenditure of money at times, but so far no dishonesty has been charged and the most charitable construction to be put upon any mismanagement is that it came from the lack of knowledge on the part of the managers as how to to conduct so large an undertaking as is a world's fair. Nevertheless and notwithstanding and despite all the "knocking" the Jamestown Exposition has received, it is, as stated, one of the most beautiful fairs ever held. The government pier, only completed two months ago, is a magnificent structure and when illuminated at night with myriads of electric lamps is really a thing of beauty. The historic feature of the fair has seldom been equalled and is by far the most interesting of the exhibits, presenting in a pleasing manner the history of this country and of its people, imparting almost at a glance useful knowledge that otherwise would take years to acquire. The government, the liberal arts, the minerals, woods, grain and fruits exhibits, &c., are most excellent and one hardly realizes the vast resources of the various States till after seeing all these at Jamestown. This is especially true of the Old Dominion and it is the duty of every Virginian, whether he lives within or without the borders of the State, to visit the expositionand to see for himself what wonderful progress Virginia has made. A visit to the Jamestown Exposition cannot fail to make a Virginian prouder than ever of Virginia.

UNION LABOR formally repudiated William R. Hearst last Thursday night at a mass meeting in Cooper Union, New York. The Tammany ticket was indorsed. On the platform were scores of prominent labor leaders who said they voted and worked for Hearst in the last two campaigns but could no longer follow him. One of the speakers said:

I voted for Hearst last year, and the Lord forgive me for it. He claims to be the laboring man's friend. There is but one honest man in New York and that is he, so he says. Now we have a chance to beat him and repudiate him.

The following was among the declarations made at the meeting:

We believe the time has arrived when the common people will show Mr. Hearst that they are not one of his chattels, to be used by him as one of his pawns on his political chess board in the game of politics played by this so-called leader, whose only interest in life is to aspire for an office that is beyond the reach of a man who has shown himself to be devoid of principal, honor and common decency.

It has always been believed that working men, sooner or later, would find it to their advantage to cut loose from Mr. Hearst.

PRESIDENT ROOSEVELT is being urged to call an extra session of Congress to deal with the financial and business situation, and has been assured that the great industries of the country will not oppose his policy of federal control of corporations. Exactly what Congress has to do with the Wall street panic but few people can tell, but, even if it has, the regular session begins in four weeks and it would seem to most reasonable people that those who brought about the trouble could wait that time for legislation in their behalf.

THE municipal elections held last Friday in England and Wales were noteworthy for the almost general defeat of the socialist and other candidates of "advanced views" and for an equally pronounced triumph for the conservatives. This will be gratifying intelligence to well thinking people in this country. From socialism there is but one step to anarchism and this is repugnant to all conservative men.

ADVICES from Paris say that a high tariff bill is being drafted which will seriously affect the United States unless a reciprocal treaty can be arranged. The "standpatters" in this country will eventually find out that erecting high tariff walls is a game which more than one can play.

EVERY man should take an interest in politics. It is part of his duty as a good citizen to do so. If the people studied public questions they could remedy every evil which confronts them. See that good honest democrats represent you.

IT IS said in Baltimore that a combination of independent cracker manufacturers, to be known as the General Biscuit Company, is in process of formation. What has become of the anti-trust laws.?

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Nov. 4.

Having failed to draw Lieut. Gov. Sanders, of Louisiana, into a pistol duel, Donald Caffrey, son of a former United States Senator, on Saturday, spread thousands of posters over New Orleans billboards calling Mr. Sanders a "common liar and poltroon." Sanders maintains he cannot at this time give Caffery personal satisfaction, however much he would like to. Holding one public office and being a candidate for another, he contends that he is not in a position to meet Caffery or any one else in mortal combat. Sanders declares himself however personally responsible for the utterances which caused the trouble, and adds: "I am prepared to meet that responsibility, and Mr. Caffrey knows where to find me."

Israel Ludlow, aeronautic expert, is in Washington to confer with the War Department on the construction of the first dirigible balloon to be owned by the United States army. Ludlow will present a plan for an airship to carry two men, and to have a speed of not less than twenty-five miles an hour.

The gravity of the present financial situation was emphasized today by a two hour's conference held at the White House between the President, E. H. Gary, chairman of the United States corporation; Henry C. Frick, the Pittsburg steel millionaire, and, for a part of the time, Secretary of State Root. It is believed that they brought with them certain recommendations agreed upon by the captains of finance and industry who met with J. Pierpont Morgan last night. When the gentlemen left they hurried away, refusing to be interviewed. Secretary Cortelyou was not present at the conference, but it is understood that during its progress he was communicated with by telephone. It is reported this afternoon that the President may issue a public statement on the subject. Secretary of State Root, after the conference at the White House, said that there would be no extra session of Congress.

Rumors that Rear Admiral Evans might be disciplined because of his speech before the Lotus Club in New York, Saturday, in which he said that his battleship fleet would be ready for either "fight or frolic," are denied here. On the contrary high officials of the navy department find nothing to criticise in his remarks. There has been no secret made at the department that when the big fleet sails from Hampton Roads, December 16, it will be in fighting trim. While no fightning is remotely contemplated, therefore, the big ships will be prepared for it, if necessary, and Admiral Evans detrayed no official secret when he said so.

President Roosevelt will leave on the midnight Pennsylvania train for New York in order to cast his vote at Oyster Bay tomorrow. He will be accompanied by Secretary Loeb and two or three members of the White House clerical force who vote in the east. He expects to be back in Washington about 6 p. m. Tuesday. It is the President's intention to make his hurried trip as quietly as possible. No speeches are on he programme.

The Weather Bureau this afternoon issued the following election day weather bulletin: Fair weather is indicated for Tuesday generally over the country except in New England, New York, northern Pennsylvania, New Jersey and northeastern Ohio, where rains are likely to occur. Word was received today from the commandant of the Mare Island Navy Yard that the riveters who proposed to go on strike there have abandoned their intentions and have gone back to work. They were warned against a strike by Acting Secretary Newberry of the Navy.

The State of South Carolina won out in the U. S. Supreme Court today in its famous $1.75 banana case. The value of the goods involved is believed to be a low water mark. The court held the statute providing a fine of $50 upon railroads for the failure to settle for the non-delivery of shipments was constitutional.

MYSTERIOUS DEATH.

Walter Farnsworth Baker, the millionaire Harvard graduate, clubman and bon vivant, whose sudden and mysterious death at the home of his friend, Frank Hurd, in Bogota, N. J., Sunday of last week, has stirred the Baker family to swift investigation, died from poison. This was established Saturday when analysis of the contents of the stomach disclosed enough chloral hydrate, or "knockout drops," to kill three men. Following the discovery came the significant statement that an arrest soon would be made, and also that other causes besides poison might have contributed to Baker's death. It is reported that in his will half a million dollars was left to a "very dear friend."

John Mitchell's Condition Critical.

Indianapolis, Ind., Nov. 4.—Word was received at the mine headquarters that John Mitchell, of that organization, who is in the hospital at La Salle, Ill., has suffered a relapse. His condition is critical, but there is little likelihood of the change either way for several days.

Lying side by side, Michilina Balladino and Juliette Fillito, two pretty Italian girls, aged 16 and 15 respectively, who recently came to this country, were found dead Saturday from asphyxiation in the home of their uncle, Frank Balladino, in New York. The gas jet in the room was turned on and the window closed. Balladino says the girls either failed to turn off the gas completely or else blew the gas out.

Samuel Gompers, president of the American Federation of Labor, characterizes the present financial flurry as nothing more nor less than a "gamblers' panic," and warns employers of labor against attempting wage reductions at their peril, because, he says, labor will not tolerate it. He recommends that labor and civic organizations, which have withdrawn money from the banks, help "defeat the gamblers' scheme" by investing in government bonds.

Raffaelle Ruffano and his wife, Antoinette, were murdered in Garfield, N. J., Saturday night. Early yesterday a neighbor found the woman's body on the walk in front of the grocery store which the couple owned. In the kitchen Ruffano's body was found lying on the floor. Both had been shot in the head. Raffano had evidently been killed instantly, but a trail of blood showed where his wife had crawled through the store and to the walk. There is no clue to the murderer.

Sixteen lives are said to have been lost and fifty houses were destroyed by a cloudburst at San Jose, Del Cabo, in Lower California, on October 14, according to Capt. Paulson and passengers on the steamer Curacoa, which arrived there from Mazatlan yesterday. The rain was preceded by a hurricane which blew with great fury for upward of twelve hours. Small craft in the harbor were sunk and a number of large vessels badly damaged. Several persons were carried out to sea. Two new wireless stations were destroyed and orange and lemon groves were ruined.

As a result of the murder Saturday night of "Tom" Thompson, assistant chief of police, at Talledega, Ala., Fred Singleton, a negro, was riddled with bullets by pursuers early yesterday. Policeman Otwell was shot in the leg. Two other negroes, implicated in the killing of Thompson, were placed in the jail at Sylacauga for safe keeping. Thompson Saturday night arrested three crapshooters. They told him they knew where a big crap game was in progress, and directed the officer to the chemical plant. When Thompson arrived there he was fired on simultaneously from several directions.

William Frederick John, a stonesetter, who lived with his family in the fashionable Dyker Heights section of Brooklyn, shot and killed his wife yesterday and then put a bullet in his head. The woman died instantly, and John was removed to a hospital, where his death occurred several hours later. The couple's two little girls, Rita and Olive, aged two and four years, respectively, witnessed the double tragedy, and while the father was firing at the wife the children crept under the bed and remained there, shrieking at the top of their voices, until the police arrived. Jealously led to the tragedy.

In view of 800 people, Jim Davis, a negro, who had shot two negro women early yesterday, leaped from the railing of the Tennessee river bridge at Knoxville Tennessee yesterday afternoon, and was drowned before he could be rescued, although a riverman went immediately to his rescue in a skiff. The death leap measured fully 100 feet. Pursued by two deputy sheriffs, Davis climbed to the top of the railing, and, pulling a pistol from his pocket, fired five times in the air, scattering the crowd, which was trying to prevent him from suicide. In his last words before leaping Davis asserted that he had killed twenty-eight persons.

Young, in Norfolk, was taken to the Central police station in that city yeaterday, and although it was necessary to rush him to St. Vincent's Hospital, a warrant was secured for his arrest on the charge of assault. When Mrs. Young reached the station and was asked for her version of the difficulty which had occurred at her home she declared that she was merely defending herself, and insisted that the young man had insulted her. Mrs. Young claims that while her husband was out of the city Seawell's attentions to her had proved annoying.

PROBING CENTRAL GEORGIA.

The State Railroad Commission Saturday issued an order calling upon the Central of Georgia Railroad and the Southern Railway Company for "full disclosures touching the sale of the stock of the former, so far as the facts may be known to them or their companies, or appearing in the books or documents in their possession."

The Commission also requested a complete list of all stockholders of the Central of Georgia at the present time, and at all times since October 1, 1895. The desired information must be furnished on or before November 15.

It has been charged that the Southern Railway Company owned a controlling interest in the Central of Georgia contrary to a State law prohibiting one line from owning stock in a competing company.

It is asserted in New York that E. H. Harriman had bought control of the Central of Georgia Railroad from Oakleigh Thorne, president of the Trust Company of America, and Marsden J. Perry, a director of the Trust Company of America and a close business associate of Thorne. Several months ago Thorne and Perry bought the Central of Georgia from the Southern Railway which was unable to hold it longer owing to public opposition.

BISHOP OF LONDON PRAISES VIRGINIA.

The Bishop of London has published some reminiscences of his American tour. He says there was an enormous crowd at Trinity Church during his first sermon, all of whom desired to shake hands with him. This prepared him for the future events, and he was not surprised when he afterward met an American bishop with his hand limp and useless, who told him that it was not caused by an operation, but only by constant handshaking.

The bishop says he cannot understand how his friendly tennis match with the President became famous. He goes on: "Virginia is the place where an Englishman feels most at home in America. He is spoiled by the kindness and attention of the Virginians, who love England and are proud of their English ancestry."

The bishop was much impressed by Yale College and by the fact that there the leading Christians were also the leading athletes. He concludes by declaring that he left the United States with affection and admiration for the great people. He believes the supposed ill-feeling toward England has been greatly exaggerated, and that what once may have existed is rapidly passing away with intercourse and the kindling of many friendships and ties.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. DEATH OF MAJOR HUNTT.

Maj Albert Lee Huntt, of Richmond, aged 69, died at his home in that city Saturday after a brief illness. Major Huntt was a native of Maryland, but had long resided in Virginia. He was living in Tennessee when the call for troops was made, and he at once returned to his adopted state and inlisted in the Alexandria Riflemen.

He was soon transferred to J. E. B. Stuart, with whom he remained until General Stuart's death. Being then transferred to General Wade Hampton's staff, Major Huntt served as a member of Hampton's staff until the war ended.

At the close of the war he engaged in the wholesale grocery business in Richmond with his wartime comrade, Major W. J. Johnson, the firm being Johnson & Huntt. He is survived by several children.

Today's Telegraphic News.

Sinking of a Steamship.

Boston, Nov. 4.—The Savannah line steamship City of Birmington struck a rock in Boston harbor and sank in forty feet of water between Castor Island and Fort Independence early today. The officers and crew got off in the life boats barely in time. There were no passengers aboard. Only the vessel's smokestacks and masts are visible and she will be a total loss. The Birmingham struck a derelict in Savannah harbor in 1898 and knocked a hole her bull. She also narrowly escaped destruction by shots fired in target practice from the proving grounds while passing Sandy Hook two years later. She was one of the best vessels in the coast service and was thoroughly rebuilt and refitted ten years ago.

It was subsequently reported that a member of the crew is missing.

Apartment House Destroyed.

New York, Nov. 4.—A woman is missing, many persons had hair breadth escapes and $30,000 damage was done as a result of a fire which destroyed the Townsend apartments on 121st street near Seventh avenue early today. The fire originated on the second floor exactly where another one started less than a month ago. The cause is not known. The families of A. C. Arnold, Adam True and J. Lang were driven to the roof, where they tore down railings, laid an improvised bridge across a six foot area and crossed to the roof of an adjoining building. Other families were carried from the upper floors down scaling ladders. When he reached the street Mr. Arnold found that his sister, Marie, had disappeared in the confusion. Grave fears are entertained for her. The apartments belonged to a Mrs. Townsend, of New Bedford, Mass.

The First National was organized in 1885. C. N. Schmick, of Cleveland, is president. He is here to close up the affairs.

Farmer Attacked.

Dayton, O., Nov. 4.—Waylaid with his foster daughter while strolling in the woods west of here yesterday, John Mohlen, a rich farmer, is at the point of death from a frightful injury inflicted on him, supposedly by whitecaps. The young woman tells a confused story of the ambuscade, asserting that she was herself attacked after her foster father had been wounded and tied to a tree. She admits, however, that her relations with Mohlen had been improper.

Injured by Explosions.

New York, Nov. 4.—A dozen men injured, two fatally, by a series of explosions of over-charged steam pipes in the McAdoo tunnel excavation at Cortlandt and Greenwich streets today. The first explosion was followed by a chorus of screams of pain and terror from the forty men at work in the pit. The cries were drowned an instant later by a second blast and for 15 minutes pipe after pipe gave way with reports like the fire of heavy guns.

Hindoos Attacked.

Everett, Wn., Nov. 4.—Smoldering feeling against the Hindoos imported to Everett as laborers, has broken into a flame and two attacks have been made on their quarters during the last 24 hours. Today many Hindoos are fleeing the city, and all who are not gone by night will be deported. During the attacks the quarters of the Hindoos were wrecked by the crowd and the foreigners were compelled to seek shelter in the jail and the police station.

Lockport, N. Y., Nov. 4—A $200,000 fire at 4 a. m. today destroyed the Franklin Mills Company, the Lockport Excelsior Company, the R. G. Hovey Coal Trestle and office and the signal towers in the main yard of the New York Central Railroad in addition to many freight cars. An alleged defective electric wire in the excelsior plant was the cause. The heaviest loss falls on the Franklin Mills, a six story stone structure.

LETTER TO DR. J. H. BITZER.

Alexandria, Virginia.

Dear Sir: We can't get over talking about those two houses at Lufkin, Tex., owned by Judge I. D. Fairchild.

Both houses are exactly alike and both painted at the same time by J. M. Torrance. One took 15½ gallons Devoe; the other 25 gallons of another paint sold at same price.

That 25 gallon paint is weak and 15 per cent. whiting; that's why it took 9½ gallons more.

Yours truly,

Financial Conference.

New York, Nov. 4.—Developments, prehaps the most startling that have yet marked the present financial crisis, are looked for today as a result of a series of conferences of financiers which began yesterday afternoon at the Waldorf-Astoria and continued until 4:30 a. m. today at J. Pierpont Morgan's mansion. Information concerning the outcome of the meetings was positively refused when the money kings scattered at dawn.

That affairs of the Trust Company of America and the Lincoln Trust Company were the main topics under consideration is the general opinion. The question of distributing the $5,000,000 which will arrive today from Europe, desired currency legislation, the United States Steel Corporation's adoption of a method of payments partly in cash and partly by check as a means of conserving the specie supply, and other business matters which the pressures of last week affairs made it impossible to take up as they arose, are said to have been considered.

Rumors concerning the two trust companies future crowded reports of other matters into the back ground, however. The most persistent story was that the city's leading bankers had deemed changes in the institution's management expedient, that new officers are to be named and perhaps have already been chosen and that both concerns may be strengthened by combination with others which have not felt the stress of the financial crisis in so marked a degree.

The officers of the two companies are reported to have objected strenously to retirement, however.

Additional engagements of gold for importation to this country from Europe on account of the money stringency were announced today, bringing the total to $32,500,000.

Mysterious Murder.

Nashville, Tenn., Nov. 4.—Deep mystery surrounds thd murder of Dr. P. McF. Allen by Tom S. Bush, for whom he acted as family physician. Both men are prominent in business and society. Bush shot Dr. Allen last evening, killing him instantly. He had been sitting on the curb in front of the doctor's office when the doctor came out. "Doctor I hate to do this, but I must," said Bush, as he drew a revolver from his pocket. "Don't do it, Tom," cried the doctor, but he was too late. Bush fired directly at his heart; then turned calmly and walked away. He went to his father's office and telephoned the police to come and arrest him, that he had murdered a man. Bush, since he was jailed, has refused absolutely to make any statement.

Collisions.

Redding, Conn., Nov. 4.—A rear-end collision of two freight trains occurred here at 3 o'clock this morning. An engine and nine cars were badly smashed and derailed and four trainmen badly hurt. One of them had his leg severed. All the injured were taken to Danbury. The tracks are blocked and wrecking trains are clearing up the wreck.

Little Rock, Ark., Nov. 4.—Five were killed and at least twenty were injured in a head-on collision between a northbound passenger train and a southbound freight near Riggins switch, eight miles from Little Rock, on the Iron Mountain Railroad last night. Several persons were seriously injured.

Killed Wife and Shot Himself.

Baltimore, Md., Nov. 4.—George Poplar jumped from a street car on Edmondson avenue, near Brune street, this morning, shot his wife, Grace, and then, after having cut her throat, shot himself. She died at the Maryland General Hospital and he is at the hospital in a critical condition. They had been separated about a week.

Plant Closes.

Pittsburg, Nov. 4.—Morehead Brothers' mills, employing four hundred men, closed down today. The plant has been operating steadily for the past year, but on Friday announcement was made that there would be a cut of $1 on puddlers. The men did not go out on strike, as all seemed willing to accept the reduction.

Pittsburg Stock Exchange.

Pittsburg, Pa., Nov. 4.—Secretary Charles J. Holman announced this morning that the stock exchange will not open today. It will be two weeks tomorrow since the exchange closed owing to the financial flurry in New York. As tomorrow is a legal holiday the exchange will be closed.

Earthquake Shocks.

Cape Girardeau, Mo., Nov. 4.—Two distinct earthquake shocks were felt here last night at 9:55, of such intensity that buildings rocked, windows rattled, dishes were shaken from their shelves and scores of persons, fearing that the buildings would fall, rushed into the streets.

New York Stock Market.

New York, Nov. 4—The stock market opened at general declines. The room was full of rumors this morning that the Tennessee Coal and Iron Company had been acquired by the United States Steel Corporation, the deal closed at a conference held late last night. There was some liquidation in Pennsylvania, which opened, ex-dividend of 3½, at 103½, a net decline of one point from Saturday's close, but opening loss in this stock was more than recovered on a buying movement that immediately developed on the floor.

Other stocks after a show of weakness moved up just the same, almost recovering the initial losses in most cases. The Harriman stocks were under some special pressure during the hour.

Brokers in many of the most active stocks have a story that a large part of the buying orders in the market come from, or are inspired by J. P. Morgan & Co. It is current report that one step taken at yesterday's conference was the formation of a bankers' pool. The demand for stocks became more urgent in the afternoon, while the supply decreased at the higher levels reached.

James R. Bod, cashier of the Huntsville, Ala., Bank and Trust Company committed suicide today.

DEATHS AND FUNERALS.

Mr. James McWilliams, who for many years had been engaged in mercantile business at the northeast corner of Cameron and Royal streets, died early yesterday morning, after a lingering illness, at his country residence, Fairfax county, a short distance south of this city. Death was due to pulmonary troubles. He was in the 59th year of his age. The deceased was a member of the Young Men's Sodality Lyceum, of this city. One brother, John McWilliams, and two sisters, Miss Tilly McWilliams and Miss Margaret McWilliams, survive him. Mr. McWilliams was a quiet and popular citizen, and his death is regretted by all who knew him.

The funeral of the late Mrs. Catherine I. Harper, who died last Friday evening, took place this morning at 11 o'clock from her late residence, 218 south Washington street. Rev. Joseph R Savier, of the Second Presbyterian Church, conducted the services, and the interment was in the Presbyterian Cemetery. The pallbearers were Messrs. A. G. Uhler, G. W. Ramsay, Wm. Campbell, Harry Griffith, C. C. Smoot and George Wise.

The funeral of the late Albert McCuen, who was found dead in a small frame building on the fish wharf last Saturday morning, took place this afternoon from the residence of his son, Mr. J. Albert McCuen, at 181 south Fairfax street. The services were conducted by Rev. Dr. Fisher.

The funeral of William Stewart, the four-year-old son of Mr. and Mrs. Moses Hayden, took place at their home, at Braddock Heights, yesterday afternoon. Rev. A. W. Myers conducted the services.

WATER COMPANY MEETING.

The annual meeting of the Alexandria Water Company was held today at which the old board of directors—Messrs. Walter Roberts, E. L. Daingerfield, George S. French, Hubert Snowden, Worth Hulfish, M. A. Ahern and J. W. Roberts—were re-elected. The reports of the officers showed a gratifying condition of the affairs of the company and of its property.

After the stockholders' meeting the directors met and re-elected the old officers, viz., Walter Roberts, president; George Uhler, secretary and treasurer; C. A. Power, superintendent, and Jas. Eveleth, collector.

The usual semi-annual dividend of $2.50 per share was declared.

CAPTAIN POSEY ARRESTED.

Capt. Frederick Posey, of the Norfolk and Washington steamer Newport News, has waived examination and has been held for the federal grand jury in Norfolk by U. S. Commissioner Stephenson upon the charge of flying the U. S. mail flag when his boat had no mail aboard. Capt. Posey gave bond for his appearance in court next week. The Newport News, which is now making day trips, is a mail steamer when running at night. Capt. Posey said he did not know he was violating the law. He put up the mail flag simply for decorative purposes, and lowered it, he said, upon the first intimation that it was wrong for him to raise it.

FINED TEN DOLLARS.

A young man living in the southeastern section of this city, who had been arrested by Officer Knight charged with stealing over 70 pounds of copper wire from the Alexandria Electric Works and selling it to a junk dealer, was arraigned in the Police Court this morning. The accused made no denial of the charge and was fined $10. Another young man, who was a party to the theft, frankly confessed the part he took in the transaction, saying he was drunk at the time, and the company urged no charge against him.

RUNAWAY.

A horse attached to a wagon belonging to the Schuler Beef Company ran away on King street, between Columbus and Washington, about 9 o'clock this morning and ran down a buggy in which Mr. T. W. Roberts was seated. The wagon was thrown on its side and the buggy was considerably damaged. Mr. Roberts escaped injury, and a colored boy who was seated in the wagon jumped out when the horse became frightened and also escaped being hurt.

STOLEN ARTICLES RECOVERED.

Raymond Briscoe, the youth who stole a number of articles in Fairfax county last week, together with a wagon, goat and harness in this city, is still at the station house. He will be taken to Fairfax tomorrow morning. Justice Payne reported this morning that he had recovered the goat, harness and wagon. He also found a valuable bull dog belonging in this city which had gone astray.

FINED FIFTY DOLLARS.

Chief Goods and Officers Garvey and Ferguson yesterday arrested a colored man named Rufus Robinson, living in the northeastern section of the city, charged with selling lager beer on Sunday and without a license. The case came before Justice Caton in the Police Court this morning. A number of colored men who had been caught in the place, some of whom were drunk when taken in custody, testified that a club met at the place on Sunday for the purpose of drinking beer, and that the liquor was purchased on Saturday night. The evidence of the witnesses did not agree, however, in some material points. The officers testified that colored men went into the place on Sundays sober and emerged in a drunken condition. Arthur Robinson, son of the accused, acknowledged that he conducted the room in which the liquor was distributed. Justice Caton in summing up the case said the object of the Sunday laws was to prevent a nuisance on that day by the distribution of intoxicants, and he would therefore dismiss Rufus Robinson and fine Arthur $50 and in addition give him a sixty-day term in jail. The fine was paid, and later the jail sentence was remitted when Mr. John P. Robinson appeared and signified his desire to become surety for the accused in the sum of $100 for his future good behavior for a term of one year.

A Mother's Argument.

"The most to be regretted act of my life," says a commander of the navy, "was a letter I wrote to my mother when about seventeen years of age. She always addressed her letters to me as 'my dear boy.' I felt at that time I was a man, or very near it, and wrote saying that her constant addressing me as a 'boy' made me feel displeased. I received in reply a letter full of reproaches and tears. Among other things, she said: 'You might grow to be as big as Goliath, as strong as Samson and as wise as Solomon; you might become ruler of a nation or emperor of many nations, and the world might revere you and fear you, but to your devoted mother you would always appear in memory in your innocent, unpretentious, unself conceited, unpampered babyhood. In those days when I washed and dressed and kissed and worshiped you, you were my idol. Nowadays you are becoming part of a gross world by contact with it, and I cannot bow down to you and worship you, but if there are manhood and maternal love transmitted to you, you will understand that the highest compliment that mother love can pay you is to call you "my dear boy."'"

Some Old Time Giants.

Cajanus, a Swedish giant who was nine feet high, was on exhibition in London in 1742, and several old handbills still exist which set forth the measurements of this freak of nature. Thirty years later we have Charles Byrne, who was eight feet four inches in height in his stockinged feet. He, however, died young, at the age of twenty-two, from hard drinking. Cotter O'Byrne, another Irish giant, followed a few years later. He was born at Kinsale in 1761 and at the age of fifteen was eight feet high. This by the time he was twenty-three had increased to nine feet four inches, and then he changed his name to O'Brian in order to make people think that he was descended from King Brian Boroihme and went on exhibition. At that business he, of course, soon realized a very comfortable fortune and retired, dying at Clifton on Sept. 8, 1804. His will especially provided that his body should be thrown into the sea in order to prevent the surgeons from cutting it up.

A Celebrated Clock.

The art of the clockmaker has achieved many remarkable triumphs during many centuries. Sometimes it is a clock wonderful for the complexity of its movements and its busy population of automatons that attracts our admiration, like that in the Cathedral of Strassburg. At other times the immense size of the machinery and the dials excites astonishment. This is the case with the celebrated clock in the tower of the Church of St. Rombaut at Mechlin. A writer in La Nature thinks this clock possesses the largest dials that exist in the world. There are four of them, one on each side of the great square tower, and their extreme diameter is nearly thirty-seven and one-half feet. The figures showing the hours are nearly six and one-half feet high, and the hands have a length of nearly twelve feet.

Who Gets Your Vote?

"Do you see that man there?" remarked a barber to a customer in his chair. "Well, he has had one and the same job for the past forty-seven years and has been married all that time, and his wife has never at any time during that period known what salary her husband was getting. The wife gets so much a week and no more and has never been able to learn what amount of money her husband has been receiving in exchange for his labor. Now, what bothers me is which should have the diamond medal—I say diamond, as in this case the finest would seem to be needed—the man for being able to so long baffle a woman's curiosity or the woman for surviving so long an unsatisfied curiosity."—Columbus Dispatch.

The Toad and Its Skin.

The toad sheds its skin at certain periods, the old one coming off and leaving a new one, which has been formed underneath, in its stead. It does not give its cast off coat away to any poorer toad, and there are no toads dealing in second hand raiment. Neither does it leave its cast off jacket on the ground after the fashion of the shiftless snake. It swallows its overcoat at one mouthful, converting its stomach into a portmanteau.

Noses Out of Joint.

When I was a girl, the aristocratic nose was high, beautifully modeled, rising in a delicately waving ridge and at the tip standing well out from the face and not turned up. But now the fashion has completely changed. The pretty women one sees portrayed in illustrated papers and magazines very seldom have much to speak of in the way of noses.—Dowager in London Chronicle.

The Difficulty About Our Composers.

"Who is your favorite composer?" inquired the artistic person. "I can't say just at this moment," answered Mr. Oumrox, with an appealing glance at his wife, "but it's somebody whose music I can't remember and whose name I can't pronounce."—Washington Star.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr Shoop tells mothers everywhere to give it without hesitation even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Demand Dr. Shoop's. Take no other. Sold by E. S.
